EXPERIENCE

- > **GOOGLE SUMMER OF CODE 2019 | ORGANIZATION ADMIN** [Github Org](#) [GSoC Page](#) MARCH 2019 - PRESENT
I am the creator of an open source project [CircuitVerse.org](#) which has been accepted as a mentor organization for Google Summer of Code 2019. I mentored 3 students and managed 3 projects. Read project CircuitVerse for more details.
- > **MOSIP | INTERN** [Mosip.io](#) JANUARY 2019 - MAY 2019
MOSIP - Modular Open Source Identity platform. MOSIP is an international project funded by world bank which is a global effort to develop an open source foundational ID system (like Aadhar) for governments to use. I worked on the test rig as part of independent verification and validation and designed the MOSIP Biometric Device compliance tool.
- > **HOMIGO | FULL STACK DEVELOPER** JUNE 2018 - AUGUST 2018
Homigo is a flat sharing platform to solve rental problems (similar to Airbnb). My internship involved setting up business analytics, third party integrations and meeting several feature requirements.
- > **ZENSE | PROJECT AND GROUP COORDINATOR** [Zense.co.in](#) JAN 2017 - PRESENT
Zense is a Software Developer Club of IIIT-Bangalore. I coordinate with various teams on several projects.

PROJECTS

- > **CIRCUITVERSE | FOUNDER** [CircuitVerse.org](#) FEB 2017 - PRESENT
CircuitVerse is an easy to use online digital circuit simulator. It provides a platform to create, share and learn digital circuits. Currently the platform is used by several professors from across the world including some from University of Chicago, University of Alabama and Virginia Tech. **I am the primary developer and maintainer of this open source project. CircuitVerse got accepted as a mentor organization for Google Summer of Code 2019.**
- > **WEB BOARD | PROJECT TEAM LEAD** [Webboard.zense.co.in](#) MAY 2018 - PRESENT
Web Board is an online platform which will allow teachers to use the smart boards in class online. Currently, the project is deployed and used within IIIT Bangalore.
- > **QR BASED ATTENDANCE SYSTEM | CO-DEVELOPER** AUGUST 2018 - PRESENT
Attendance is a time-consuming process and tedious administrative work. We developed a novel method to take attendance using a dynamic QR based system. This project is currently undergoing alpha testing within IIIT Bangalore.
